Red and Bonita Mine SAP - 2014 With Appendices.pdf

Steve,

The previous version already included references to the packer test procedure which was included in Appendix B. I had sent you the Word document that doesn't have the appendices. Attached is a pdf that includes all appendices plus the changes you'd requested. I'm just waiting to get the signed signature page from one more person, then I can send you a final pdf with signatures. I can still make changes if you see things you want to change in this version.

Jan

Jan,

Where do things stand on the SAP for the R n B with the Packer Test procedure included ?

Thanks,
Steve

Steve,

Thanks for the edits. I'll get the changes made, run the report through the system, and get you a signed copy before you get back.

Eric sent Allen the packer test data but I haven't seen his final interpretation of results. He sent a brief summary of his preliminary findings when I asked for information for the polrep. It would make sense to add his final findings to the 2013/2014 site report. Is it OK if I send him an e-mail about that, or do you have it already or want to do it yourself?

Jan

Jan,

These are minor edits on the attached, and the other question is what did we do relative to the Packer Test Data ? I have also included the signature page if you can work with it.

Thanks
